and **SMART LIFE**

**AMBROGIO**  
ROBOT

THE ROBOTIC LAWNMOWER

## Your "green" butler with a technological heart

Ambrogio robot is the robotic lawnmower that can **autonomously** manage both lawn mowing and recharging operations with **maximum safety and efficiency**.

Years of  
experience

**+20**

Models

### Simple and eco-friendly

Perfect lawn and  
**no grass disposal**

### Autonomous

Powerful batteries that guarantee  
**long work cycles**

### Performing

Optimal management  
**of slopes and uniformity of the cut**

### Made in Italy

High quality **components**

### 1 Ambrogio works autonomously

Ambrogio Robot mows your lawn **automatically and autonomously**, without any need for intervention or assistance.

### 2 Fits into any garden

There is a model for each type of garden. **Ambrogio meets every need.**

### 3 ...And grass clippings are no longer a problem

Thanks to the Mulching function, the grass clippings are **left on the ground** and act as a natural fertiliser for the lawn.

### 4 Simple and friendly technology

Smart Technologies allow you to **manage and control the lawn mower robot remotely** and use voice assistants.

### 5 Small animals are always safe

Ambrogio Robot is a **friend of your pet and the small animals** that live in the garden, working at a safe distance until the blade stops.

### 6 More robots working in harmony

The navigation system allows you to **manage multiple robots, simultaneously** and safely, in a single green area.
